

Hybrids between species are shaded in dark grey, while hybrids between subspecies are shaded in light grey. A distinction is made between hybridization in Nature and Captivity.

| <b>Genus <i>Cypseloides</i></b>                                     |   |        |
|---|---|--------|
| Black Swift<br><i>Cypseloides niger borealis</i>                    | Black Swift<br><i>Cypseloides niger costaricensis</i>               | Nature |
| Black Swift<br><i>Cypseloides niger costaricensis</i>               | Black Swift<br><i>Cypseloides niger borealis</i>                    | Nature |
|   |   |        |
| Chestnut-collared Swift<br><i>Cypseloides rutilus brunnitorques</i> | Chestnut-collared Swift<br><i>Cypseloides rutilus griseifrons</i>   | Nature |
| Chestnut-collared Swift<br><i>Cypseloides rutilus griseifrons</i>   | Chestnut-collared Swift<br><i>Cypseloides rutilus brunnitorques</i> | Nature |

\* The Chestnut-collared Swift (*Cypseloides rutilus*) has been moved to the genus *Streptoprocne* by some authorities.
